Breeding Rights (Optional): \$250 additionally

This puppy sales contract legally binds the Breeder and the Purchaser on the following conditions:

1. The purchaser will be notified of the puppies' birth and allowed to pick their choice starting at 3-5 weeks.
2. If the sex desired is not available, the deposit will be refunded or put toward the next litter, depending on the purchaser's desire. If the chosen puppy does not survive, the purchaser will be allowed to choose another unclaimed puppy.
3. Puppies are reared in a home environment and wormed at two, four, and six weeks. The breeder's veterinarian checks the puppy and administers the first set of shots unless otherwise agreed.
4. The purchaser must have the puppy vet-checked within 72 business hours of collection unless discussed otherwise. If certified unfit for sale within seven days and returned in the same condition, the breeder will refund the purchase price. Return expenses are the purchaser's responsibility.
5. The purchaser agrees to maintain the puppy's welfare, health, and necessary veterinary care. The dog will not be neglected or maltreated in any way.
6. Health Guarantee: The breeder provides a one-year health guarantee for life-threatening health issues (extendable to two years if the purchaser uses TLC dog food and NuVet vitamins). Specific conditions and terms apply, as detailed in the full agreement.

The breeder has inquired about the purchaser's past experience with dogs and places the puppy on this basis. Every puppy is an individual, and the breeder cannot be held responsible for future conditions, genetic or otherwise.
